Travel, Hospitality and Logistics

## ENTERPRISE APPLICATIONS

We help you find the right balance between features, powerful tools and innovative reporting and the best fit solution. Choose Oracle, PeopleSoft, SAP or Microsoft Dynamics as your preferred solution. Our vastly talented resource pool has an expertise to make it work for you.

PeopleTech, with its holistic Enterprise Application Service offerings, provide you an edge over competitors. Our services encompass the entire life cycle including-

- ✓ Customization & Integration
- ✓ Implementations & Roll Outs
- ✓ Upgrades & Consolidation
- ✓ Application Managed & Testing Services
- ✓ Maintenance & Support Services
- ✓ Instance Consolidation Services
- ✓ 24x7x365 Services

## CLOUD

Every business person dreams to have his business on the cloud. Every company business goal is to be ubiquitous, now that we live in a world without boundaries – at least when it comes to business.

We help you achieve this aim with our cloud solutions that encompass-

- ✓ User Experience Design
- ✓ Web & Mobile Development
- ✓ Service Oriented Architecture (SOA)
- ✓ Software as a Service (SaaS)
- ✓ Platform as a Service (PaaS)
- ✓ Infrastructure as a service (IaaS)
- ✓ Enterprise Integrated Services on Cloud

## BUSINESS INTELLIGENCE

As organizations grow, the business strategy revolves around the information that makes sense. PeopleTech helps deploy comprehensive business intelligence tools to capture and utilize data across administrative, human resource and finance functions.

- ✓ Data Management
- ✓ Information Integration
- ✓ Information Quality Management
- ✓ Reporting
- ✓ Dashboards
- ✓ Mobility

## MOBILITY

Mobility is the first step towards agility and we help you with taking your mobile and making it agile with information and application access across the world.

- ✓ Development of Mobile apps for Android, iOS & Windows
- ✓ Enterprise Application Integration
- ✓ Workflow driven apps
- ✓ Mobile Extensibility
- ✓ ERP Mobility

## USER EXPERIENCE

PeopleTech specializes in not only defining and refining your brand but also extending it online. Our product definition services help companies bring software products and solutions to life, all the while ensuring they meet the brand promise.

Delivering efficiency and usability across platforms and technologies. Below are the services that PeopleTech provides through User Experience -

- ✔ User Research
- ✔ Usability Studies

## BIG DATA

PeopleTech's Big Data solutions makes data work for the enterprise. Through integration with existing IT solutions, we facilitate data management, analytical processing and visualization that accelerates decision making and provides a competitive advantage.

- ✔ Big Data Portal
- ✔ Big Data Analytics
- ✔ Big Data with User Experience platform
- ✔ Enterprise Search Solutions
- ✔ Log Processing and Analysis

## APPLICATION MODERNIZATION

PeopleTech provides Application Modernization services to address the various customer specific problems. Our solutions cover the whole gamut of services -

- ✔ Application Modernization Assessment
- ✔ Field Remediation
- ✔ Application Rationalization
- ✔ Data Migration
- ✔ Application Re-engineering
- ✔ Application Migration
- ✔ SOA Transformation

## IOT

PeopleTech's Internet of Things (IoT) helps our clients in providing the unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction. Services We Offer -

- ✔ **Connect:** Managing different machine, enterprise software systems and consumers on a single platform for secure, bi directional communication between the devices
- ✔ **Integrate:** The offerings include Sensor Data Analytics, Mobile apps for Sensor data, Machine learning & AI and Sensor Applications Cloud deployment. Our services include integration and implementation of partner products, and system integration.
- ✔ **Analyze:** Real time analysis, Big Data and predictive analytics of IoT streams with event aggregation, filtering and correlation

## WHY PEOPLETECH?

Established with a vision - "PeopleTech envisages that Excellence in its business practices and deliverables are not by acts of omission or commission but purely by habit."

- ✓ Gold Partner level with Oracle and Microsoft with close to a decade of experience in delivering mission critical solutions
- ✓ As a Microsoft Valued Partner (MSVP) Preferred program member for Microsoft, PeopleTech is designated as preferred vendor for Microsoft
- ✓ Expansive repository of reusable scripts and frameworks to maximize cost and time efficiencies
- ✓ PeopleTech will play a critical role in planning and mapping the new environment as well as identifying opportunities to eliminate customizations.
- ✓ Automation tools enhance quality, minimize human error and offer unmatched cost-efficiency
- ✓ PeopleTech follows stringent governance models to ensure that the project is delivered on time and in compliance.
- ✓ PeopleTech offers a single point of delivery and support through the entire IT lifecycle, from
- ✓ analysis through day-to-day support and operations.
- ✓ Extensive pool of talented and experienced resources, available onsite, near-shore as well as offshore
- ✓ Flex! offering to maximize benefits, enhance business continuity and minimize cost
- ✓ Green Source initiative makes available experienced local resources at rates comparable to offshore services
